In The Spotlight

An Eventful Quarter!

Do you know the feeling when you have some exciting news and can't wait to share it with your family and friends? That's exactly how we are feeling right now! They say that happiness is always multiplied when it is shared with others. We are so thrilled that we are walking this incredible journey along with well-wishers and supporters like you who continue to have faith in us.

So don't forget to add **'Read Muktangan's Quarterly Newsletter'** in your To-Do List today!

What's Making Headlines?

Our Student Achievements!

Our talented students have made us proud! Sarthak Patil, 6th Std student from Globe Mill Passage Municipal English Medium Secondary School secured two gold medals for India in the International Karate Tournament Nepal 2021 held from 2nd October to 5th October. He also won two gold medals along with Namrata Jadhav who won a silver and bronze medal in the 4th National Youth Games Championship 2021 held in Goa for karate.

Back to School!

The wait was finally over for us! Our classrooms became lively again with children coming back to school. Children definitely had their hands full trying to cope with the changes and uncertainty. Our primary focus was equipping children with coping mechanisms in a safe environment to help them adapt to the new routine.

National Achievement Survey 2021

The National Achievement Survey, 2021 was conducted to assess the competencies developed by students at the grade levels of third, fifth, and eighth with the aim at understanding prevalent gaps in the education system in which students from our N.M. Joshi Marg Mumbai Public School also participated.

Dream On India

We say that children are the future but do we actually listen to their ideas? Dream On India encouraged children to share artworks of their vision for India in which students from our schools also participated. All these beautiful dreams were compiled into a coffee table book shared with the Hon. President of India for which they received an acknowledgement letter too! Every drop in the ocean is precious and we hope that these little voices move mountains in the future!

We Share, We Learn!

Libraries for the Community, by the Community!

While we managed to stay connected with a majority of our students and parent community, we realized that access to books and learning resources was a challenge. Along with our parents, we decided to start community libraries open to all readers and managed by parent volunteers themselves. We are extremely happy to share with you that we commenced our '**Muktangan Mohalla Library**' programme in the **7** communities in and around our schools on 15th October 2021. The daily conversations in these communities revolve around different themes and characters of stories they are reading. Families have come together as a result of books and parents who were reluctant to converse are helping each other learn new languages. Isn't it beautiful!

Our Journey with Atma

We truly believe that collaboration is the most effective way to learn something new. With technology being the soul of operations today, we wanted to strengthen our communications and create a robust strategy. All our fears were put to rest when our mentor, Mr. Shrikant Ayyangar from Mission for Vision embarked on this journey with us through Atma's mentorship programme. We certainly feel a lot more confident now in leveraging our communication goals and are very grateful for such a wonderful learning experience.
