

MUKTANGAN IN THE SPOTLIGHT

2022 (April-June)

The most exciting time of the year when the entire Muktangan family comes together to celebrate learning, innovation and experience! Relationship building forms the basis of everything that we do and here in Muktangan, we believe in the magic of collaboration. The most wonderful feeling that these events ignite within each one of us is ‘a sense of belonging’. And where there is belonging, there is greater inclusion and joy!

"Education is not preparation for life; education is life itself."

John Dewey

Project Day

A time when our schools hustle and bustle with unique ideas and innovative projects. Rather than focusing on memory of the learner, project-based learning focuses on the development of vital skills like creativity, critical thinking, confidence and collaboration to name a few.

Mukt-Milanam

The paths may have diverged but the bond still remains strong. And what could be better than having our shining stars from batches 2013, 2014, 2016 and 2017 join us for our very first alumni meet “Mukt Milanam” The event was also graced by our Managing Trustee Mr. Sunil Mehta and Co-CEO Mr. K.R.Satose along with members of the management, teachers and faculty.

Annual Day

Meet our rockstars who enthralled everyone with amazing performances during the Annual Day event. A little bit of motivation, love and care goes a long way in nurturing an environment where everyone can 'Learn and Grow Together.'

Donor Engagement Initiatives

A colourful class is a stimulating class. When we say that learning should be a joyful experience for children, the colours we use also helps in creating a positive environment. We would like to thank our heartfelt gratitude to Credit Suisse team for enlivening our classrooms with creative artwork and paintings.

Teacher Certification Day

A teacher is one who drives passion within the learner to think outside the box. Our Preservice Teacher Education Program transforms local community members into capable learning facilitators. During our Teacher Certification Programme, we witnessed an empowered batch of trainees with a mission to enhance the quality of education.

Mukt-Minds

Rather than being complacent spectators, our children believe in proactively driving change within their own communities and the Mukt-Minds Community Research Project is one such guided platform where our children share their findings. The projects this year factored in many emergent issues like mental health, online learning, environmental sustainability, health and wellbeing.

Need-based Professional Development Resources developed by Muktangan during the COVID - 19 pandemic

PROFESSIONAL DEVELOPMENT

Zainab Bhinderwala's screen

Sharing of knowledge, skills, resources and the intention for global good is helping us collectively achieve the sustainable development goals. Given how important early childhood education is for the overall health of the entire system, it's imperative that we all keep reimagining quality early childhood practices for our children. We are so pleased to share with you that Ms. Gauravi Jadhav, Leader Early Childhood Development presented a paper titled 'Parents and Teachers as Equal Partners for Quality Education Pre and Post Pandemic' co-authored with Ms. Jumana Rampurawala, Chief Programme Officer and Ms. Shreya Sawant and Ms. Zainab Bhinderwala presented a paper titled 'Sustainable Continuous Professional Development-Pre and Post Pandemic' at the Association for Early Childhood Education and Development (AECED) World Conference 2022.

World Music Day

International Yoga Day

Teacher Professional Development

Just like teachers work towards creating a meaningful learning environment for children, even they require the same kind of mental stimulation. Our ongoing teacher professional development sessions aim at addressing the specific needs of teachers through workshops, peer learning, field visits and discussions. These reflective processes and forums help teachers and educators stayed motivated and enhance their productivity.
