

MUKTANGAN IN THE SPOTLIGHT

FROM OUR SCHOOLS!

Wow! It was such a bustling quarter packed with events, celebrations, achievements and collaboration. After two years of virtual sessions, seeing the school echo with the lively and happy sounds of children and teachers felt like a breath of fresh air. A learning community is indeed a growing and thriving community and seeing the transformational potential of every member within our learning community strengthens our belief in invoking this human agency to create a brighter and better world.

We hope you enjoy seeing some beautiful and happy moments from the quarter that was!

EXPRESSIONS

Little minds imagine great things and hold big dreams inside those tiny eyes. Holistic education gives a platform to children to express themselves freely without any inhibitions. And we believe that every dream, emotion and thought is valid and needs to be heard. That's how 'Expressions' event commenced which has given numerous children and teachers the space to explore their interests and share their views with others.

WORLD OF EXPOSURE

What a spectacular Career Fair put up by our 8th Graders at the World of Exposure event!

How many of you felt confident while transitioning to a new career? Along with academics and conceptual knowledge, what children need to learn is to apply this to the real world. In today's dynamic 21st century, the development of life skills is extremely important for children. The World of Exposure- career readiness programme equips our children to be 'Future-Ready in the 21st Century!'

WOMEN'S DAY 2022

'Gender Equality Today for a Sustainable Tomorrow' was the theme for International Women's Day 2022. To achieve our goal of gender equity and inclusion, we all need to **#breakthebias** today and the role teachers have in breaking down these gender biases is important. Women's Day was yet another opportunity for children and teachers to challenge common stereotypes and sensitize each other about gender equality.

THE EDUCATION BULLETIN

Ms. Gauravi Jadhav, Leader Early Childhood Development, attended the state level consultation and development of school readiness programme 'Vidya Pravesh' at SCERT Pune. Vidya Pravesh Module is a three month play based school preparation module for Grade 1 students with the aim of their overall well-being and holistic development.

Kindness, sharing, affection, empathy needs to be integrated within the culture of the school if we want our children to grow up as compassionate individuals who care for humanity and the planet. Our schools celebrated Valentine's Week in the most special and unique way by engaging in random acts of kindness towards the community and the environment.

Congratulations to our little artist, Sufiyan Arif Mulla from Grade 3 for receiving a certificate and trophy from the Brihanmumbai Municipal Corporation (BMC) at the drawing competition 'Bal Chitrakala Spardha' organized by the Hon'ble Mayor.

THE EDUCATION BULLETIN

Our children from N.M.Joshi Marg MPS school have done us proud during the 'Journalist Atmaram More Memorial Inter School U/16 Kabaddi Tournament' organized by Atmaram More Pratishthan. Shivam Salunkhe from Grade 6 was honoured with a medal for being the best player of the match and Sarvesh Redekar from Grade 8 secured a medal for maintaining discipline during the match.

It was a musical day at the 'Music for Schools' annual day organized by the National Centre for the Performing Arts (NCPA) in which our students also performed with great enthusiasm. It's indeed our teachers who ignite every child's creativity with their care, support and encouragement.

Our children from Gokhale Road South MPS Sayani Road school and Prabhadevi MPS school presented projects on a wide range of topics during the iCan School Challenge, an Adani Group Initiative for a cleaner future. We are so happy so announce that our children's projects were selected and their ideas were greatly appreciated.

A LEARNING COMMUNITY

Fostering friendships across oceans and continents! Our engagement with the pre-school children from Shaftesbury school, UK, has fostered cultural exchange and brought us closer as a community. Their school team conducted an online session with our preschool children on London's culture and also engaged them in creative hands-on activities. Cultural exchange is indeed beautiful and paves way towards a more inclusive world.

“

Highly impressed with the overall school, teachers, curriculum and the students. The pedagogy resembles any high-end school and is a good initiative for low-income households.

- RBL Team
